Consent-Approve item XI-D – Proposed Facilities Related Policy Changes presented by Mr. Patrick Finnemore, Director of Facilities, and Dr. Hancock, excerpts follow:

“It has been several years since the last time the facilities related Board Policies were reviewed and revised. Since that time, there have been some changes in the processes and/or terminology that the District uses. Because of this, the Board Policies should be revised to better reflect the current practices and procedures being followed.

This report was reviewed by the Planning, Facilities, and Equipment and the Personnel and Policy Committees at the November 12, 2013 meeting, and the combined Committees unanimously recommended that it be forwarded on to the full Board for consideration.

The School Board approved these facilities related policy changes as a first reading on November 26, 2013. Administration recommends that the School Board approve the facilities related policy changes as a second reading this evening.”

Mrs. Coleman moved to approve the Consent Agenda as revised. Mrs. Snyder seconded the motion. Unanimously approved.

Dr. Floyd Williams, Assistant Superintendent of Elementary School Leadership, and Dr. Angela Andersson, Principal at Kenosha School of Technology Enhanced Curriculum (KTEC) presented the Proposed Expansion of Kenosha School of Technology Enhanced Curriculum Charter School submitted by Mr. Finnemore, Dr. Andersson, Dr. Williams, and Dr. Hancock, excerpts follow:

“When McKinley Middle School was closed at the end of the 2011-12 school year, a number of options were discussed in regards to what could be done with the building. These options included selling the building, using the building for some other purpose, demolishing the building, or holding onto it for possible future use. It was decided at the time to keep all options open with the last resort being demolishing the building. We marketed the building for possible sale and have taken approximately a dozen different groups through the building in the past 16 months. A couple of groups have expressed interest in the building; however the estimated sale value of the building from an independent market analysis was only \$100,000, making any sale not very compelling from a financial perspective. The reality of a possible sale not being a major source of revenue and the fact that the building shares a common site with McKinley Elementary along with the growing interest in choice and charter schools lead to the recommendation contained in this report. Specifically, our recommendation is to expand the Kenosha School of Technology Enhanced Curriculum (KTEC) into a two campus charter school maintaining its current location in the former Lincoln

Elementary building as well as adding a second location at the former McKinley Middle School building.

Under this proposal, KTEC will be one school operating with two locations (18th Avenue Campus and 32nd Avenue Campus) to serve students in Pre-Kindergarten thru eighth grade. However, the second, 32nd Avenue, campus enrollment will expand over time. In the 2014 – 15 school year, this campus will serve the needs of students in PreK through fifth grade. Each year after that a grade will be added until the school reaches eighth grade in 2017 – 18 with a total anticipated enrollment of 775 students.

This expansion will be a replication / continuation of the KTEC program. Students will be engaged in Science, Technology, Engineering, and Math (STEM) activities and have a focus on 21st Century learning strategies as outlined in the KTEC charter agreement.

Each year applications are taken for the following school year from the day students return from Winter Break until January 31st at 3:30 p.m. The waitlist expires at the end of first semester so there is a new lottery each year. For the 2014 – 15 school year, students enrolled in PreK – 4th grade at the current location will be given the choice to transfer to the 38th Avenue campus. New applicants will be asked their preference of campus. If all the spaces are filled in their desired campus and there are spaces available in the other campus then they will be offered placement at the other campus. The Administrator at KTEC, Dr. Angela Andersson, will assign current staff to one of the two campuses to ensure the greatest level of fidelity to the KTEC curriculum and school model culture. The Governance Board of KTEC unanimously supports this expansion. The charter agreement with two revisions is in Appendix A. One revision is the facility description section. The second revision reflects the lottery changes needed with two campuses as described above.

Effective July 1, 2014, the Kenosha School of Technology Enhanced Curriculum will pay all operating expenses and ensure upkeep on the former McKinley Middle School building. In exchange for covering the expenses of the building, the KTEC school may use the facility rent free as long as they continue to be an instrumentality of Kenosha Unified School District. The school will pay utility bills, custodial costs, and maintenance that is needed. To save on start-up costs KTEC will use excess furniture already owned by Kenosha Unified. This furniture will include student and teacher desks, primary grade chairs, and file cabinets. All other furniture and supplies will be paid by KTEC. These funds will come from carryover dollars that have been saved in recent years, donations, and grants.

This report was reviewed by the Planning, Facilities, and Equipment and the Curriculum Committees at the December 3, 2013 meeting, and the combined Committees unanimously recommended that it be forwarded on to the full Board for consideration. In addition, a community meeting was held on December 4, 2013 and the feedback from the public attending the meeting regarding the proposal was overwhelmingly positive.

Administration recommends Board approval of the expansion of the Kenosha School of Technology Enhanced Curriculum through the use of the former McKinley Middle School building and through the revised charter contract that reflects this facility addition as described in this report.”

Mr. Flood moved to approve of the expansion of the Kenosha School of Technology Enhanced Curriculum through the use of the former McKinley Middle School building and through the revised charter contract that reflects this facility addition as presented in the agenda. Mrs. Coleman seconded the motion. Unanimously approved.

Mr. Kristopher Keckler, Executive Director of Information & Accountability, presented the Four-Year Graduation Rate – Cohort Analysis submitted by Ms. Renee Blise, Research Coordinator; Mr. Keckler; and Dr. Hancock, excerpts follow:

“Administration presented the first cohort analysis of graduation trends to the Kenosha Unified School Board beginning with School Year 1994-95. This cohort analysis is the eighteenth annual report to the Kenosha Unified School Board. It provides a “base cohort” illustrating the progress of students from their initial assignment as a ninth grader on the Official Third Friday Count Day in SY 2009-10 until the end of summer school four school years later in August 2013. Additionally, the graduation “base cohort” of the Class of 2012 was examined in terms of its progress during the year following its designated graduation year (fifth year).

The cohort graduation rate presented in this report is slightly different than the rate published by the Wisconsin Department of Public Instruction (DPI). Beginning in 2009-10, DPI reported a 4-year cohort graduation rate which includes all students who have been assigned to a *Wisconsin* public school cohort and were last enrolled in KUSD during the 4-year time period, whether or not the student *began* in KUSD in their ninth grade year. Additionally, DPI’s graduation rate is a factor in two priority areas of the new Accountability School and District Report Card: Closing Gaps and On-Track and Postsecondary Readiness. For the school and district report cards, DPI provides data on the 4-year cohort and the 6-year cohort. Subsequent KUSD specific cohort reports will align with the DPI model of presenting a 4-year and 6-year analysis.

It should be noted that a few changes regarding high school completion were recently put in place. In April 2011, the Kenosha Unified Rule 6456 *Graduation Requirements* was updated. Effective for the Class of 2013 was a change in the high school graduation credit requirement from 26 to 23 credits. The minimum credits for Social Studies, Math and Science were reduced from 4 to 3 credits. Currently, Wisconsin High School Graduation Standards contain a minimum requirement of 3 credits for Social Studies, 2 credits each for Math and Science, and 21.5 credits overall. State legislators are in the process of a proposal to increase the Math and Science requirements from 2 to 3 credits. In April 2012, Rule 6456 also added a Community/Service Learning requirement beginning with the Class of 2013 and an Online Learning Experience beginning with the Class of 2016. Another change was implemented in September 2013; the standardized assessment used in the High School Competency Diploma Option transitioned from the paper and pencil Iowa Tests of Educational Development (ITED) to the Iowa Assessment, an on-line version that is aligned to the Common Core Standards.

At its December 3, 2013 meeting, the Curriculum/Program Standing Committee reviewed and accepted the 2012-13 Four Year Graduation Rate - Cohort Analysis Report and recommended that it be forwarded to the full School Board for its review and acceptance. Administration recommends that the School Board review and accept the 2012-13 Four Year Graduation Rate-Cohort Analysis Report. The Office of Information and Accountability will

continue to monitor graduation patterns and submit the 2013-14 Four Year Graduation Rate - Cohort Analysis Report to the School Board Curriculum/Program Standing Committee in the fall of 2014.”

Mrs. Snyder moved to accept the Four-Year Graduation Rate – Cohort Analysis and that the Office of Information and Accountability continue to monitor graduation patterns and submit the 2013-14 Four Year Graduation Rate - Cohort Analysis Report to the School Board Curriculum/Program Standing Committee in the fall of 2014. PROPOSED OUTDOOR ATHLETIC FACILITY EVALUATION

Background

In fall 2000 the school board authorized the formation of a Sports Advisory Committee to evaluate all aspects of the Kenosha Unified School District athletics program. One of the four primary subcommittees formed as part of the sports advisory effort focused on athletic facilities. Both Steve Knecht and Patrick Finnemore were members of that subcommittee, which was cochaired by Marc Hujik (a Kenosha Unified School District parent and former athlete) and John Ruffolo (a Kenosha Unified School District coach and teacher). The subcommittee evaluated all aspects of the Kenosha Unified School District's athletic facilities and was the primary driver of two major initiatives:

1. The inclusion of a high school competition track as part of the design and construction of Mahone Middle School
2. The successful 2005 referendum, which included athletic additions to both Bradford and Tremper High Schools

(These additions focused on the interior athletic facilities as the subcommittee determined that this was a higher priority than outdoor facilities at that time.)

Since that time great strides have been made in improving the outdoor athletic facilities through a combination of general fund dollars, fundraising, donations, and the Indian Trail referendum project. A brief list of the outdoor athletic facility improvements includes:

Bradford

- Creation of Wavro Field for baseball—including dugouts, press box, bullpens, fencing, and infield construction through major donations and some district financial support
- Major upgrades to the softball field including fencing, scoreboard, bullpens, and infield work through donations and some district financial support
- Addition of an irrigation system for all game and practice fields funded by district money

- Creation of three practice football fields north of the ravine through district funding
- Resurfacing of the tennis courts funded by district money

Tremper

- Creation of a new varsity softball field at Anderson Park—including fencing, infield work, batting cage, and dugouts through major donations and some district financial support
- Relocation of practice football fields to allow baseball field to become the varsity game field with addition of fence, dugouts, scoreboard, and warning tracks through major donations and some district financial support
- Addition of an irrigation system for all game and practice fields funded by district money
- Resurfacing of the tennis courts funded by district money

In addition, the Indian Trail referendum funded Jaskwhich Stadium as well as all of the competition and practice facilities at Indian Trail High School. The sale of the old Bain Elementary School led to the installation of synthetic turf at Ameche Field. These improvements have been dramatic to the landscape of the athletic facilities but have also spurred on the community to expect even more. They have helped fuel the discussion for having a full complement of facilities for each of the three boundary high schools. One example of this is the recent success of the Bradford High School football team, which spurred greater interest in Bradford having a football stadium of its own.

One other looming need is the replacement of the bleachers and press box at Ameche Field. They were constructed by the city over 30 years ago and are both a safety concern and a pending major maintenance need.

Proposed Plan

A small team of facilities and athletics personnel toured and evaluated the exterior athletic facilities of the district's high schools and came up with a long-term conceptual plan for possible improvements. Conceptual aerial plans and a cost estimate are provided in Appendix A that detail the preliminary evaluation. This is considered to be a pretty comprehensive list of potential improvements that would bring the athletic facilities at all three boundary high schools to a common and complete state. The estimated cost for all of the improvements identified is approximately \$13,200,000 in today's

dollars. Obviously, this is a huge number and something that cannot and would not be taken lightly by anyone.

Implementation of the following plan is proposed:

1. Bring this proposal and associated recommendation to the January 14, 2014, meeting of the Planning/Facilities/Equipment Standing Committee Meeting and later the full school board to form a new Sports Advisory Committee for the purpose of evaluating and making recommendations related to the outdoor athletic facilities at the three boundary high schools with the majority of the attention being focused on Bradford and Tremper.
2. Upon approval, form a committee consisting of Steven Knecht; Patrick Finnemore; the athletic directors at the three schools; a combination of outdoor sport coaches, parents, and athletes; and community members who either are active in athletics or have expertise that can aid the committee.
3. The committee would determine the scope and timeline for their efforts and would communicate those to the board and the Planning/Facilities/Equipment Standing Committee.
4. A final report would be made to the Planning/Facilities/Equipment Standing Committee and also the Audit/Budget/Finance Committee and later the full board on recommendations related to the outdoor athletic facilities. These recommendations would include a scope of work, cost estimates, a proposed funding plan, as well as a schedule for the committees and the board to consider. It is expected that this final report would be completed no later than one year after formation of the Sports Advisory Committee.

It is expected that a large portion of the funding would have to come through a referendum, and so the timing of such will be very important. It is recommended that Tarik Hamdan be an advisor and resource to the Sports Advisory Committee in helping evaluate the debt retirement schedule and other capital borrowing issues versus the timing of a possible referendum.

At its January 14, 2014, meeting, the Planning/Facilities/Equipment Standing Committee voted to forward this report to the School Board for consideration.

Recommendation

Administration recommends that the School Board approve formation of a new Sports Advisory Committee for the purpose of evaluating and making recommendations related to the outdoor athletic facilities at the three boundary high schools with the majority of the attention being focused on Bradford and Tremper.

School Board Policy/Rule 8850 – School Board Committees

Mr. Flood's Rationale: Students are largest stakeholder in the district and should therefore have a large say in the districts issues. I am proposing these policy changes in order to support the strength of the student voice and opinion.

At the December 3, 2013 Personnel/Policy Standing Committee meeting, a motion was approved to forward proposed revisions to Policy 8850 to the school board for consideration as a first and second reading.

At the December 17, 2013 Regular School Board Meeting, revised Policy/Rule 8850 was approved as a first reading.

Policy 8850 – School Board Committees is presented for a second reading this evening.

Dr. Joseph Mangi
Interim Superintendent of Schools

POLICY 8850
SCHOOL BOARD COMMITTEES

The School Board believes committees can be useful in the decision-making process and in the conducting of Board business. By using a Board committee structure, the Board is able to conduct its business in an efficient and effective manner, study issues facing the District more in depth, and take more ownership in things happening in the District. The committee structure is designed to assist the Board in the conducting of Board business; it is not intended to take away a Board member's opportunity to ask questions or to be involved in the decision-making process.

The Board shall have four standing committees: (1) Audit, Budget and Finance, (2) Curriculum and Program, (3) Planning, Facilities and Equipment, and (4) Personnel and Policy. Each standing committee shall consist of three Board members. A quorum of the committee shall be a minimum of two (2) Board members. The Board President shall appoint Board members to standing committees in accordance with established procedures. No Board member may serve on more than two standing committees. The Board President shall select the committee chair. The committee chair may seek ~~to~~ six qualified community members and, ~~at the discretion of the chair one non-voting~~ **two students to serve on the committee advisor to serve in an advisory capacity** Every attempt will be made to have these committees reflect the diversity of the District. Community member appointments shall be made in accordance with established procedures. The term of appointment to a standing committee will be for two years for community ~~members~~ and student ~~advisors~~ **members**, with option of renewal at the chair's discretion.

Whenever possible, terms will be staggered. It is expected that ~~community~~ **all committee** members will attend at least 80% of the meetings of the standing committee to which they have been appointed. Consistent with Board policy concerning Board officers, the chair of each committee may not serve as committee chair for more than two consecutive years.

The Board may establish other standing and temporary ad-hoc committees from time to time as needed. The Board President shall make such committee appointments in the same manner as other standing committee appointments.

The Board President shall serve as an ex-officio member of all standing and temporary committees of the Board.

The function of all Board committees should be fact-finding, deliberating and advising, but not legislating or policymaking. Each Board committee shall be assigned specific duties. All policymaking actions taken by a Board committee shall be subject to ratification and approval of the Board. For policy-related items, the Board will have a first and second reading of the recommended policy before final policy adoption. The policy readings shall occur at separate Board meetings.

Public notice shall be given for all Board committee meetings in accordance with state law and Board policy.

Open Enrollment Allocations – 2014-15 School Year

The Wisconsin Department of Public Instruction (DPI) stipulates that a district must allocate open enrollment spaces during their January board meetings. The Open Enrollment period for the state runs from February 3rd, 2014, to April 30th, 2014. Along with the usual 3 month open enrollment window, applicants can also apply for immediate admittance into a non-resident district (i.e. KUSD) during the current school year if the applicant can demonstrate that he/she meets certain criteria.

Attached in Appendix “A” is a listing by grade of available open enrollment seats for both regular and special education for School Year 2014-15. DPI has indicated that the District’s affirmation must specifically delineate both regular and special education seats by grade and not just an overall number of available seats. Appendix “A” also includes a historical reference regarding allocated seats and those that were filled on the Official Third Friday Count Day for that respective school year.

In terms of available spaces for School Year 2014-15 within the Kenosha Unified School District, the Offices of Educational Accountability, School Leadership, and Teaching and Learning (Special Education/Student Support and Early Education) met on multiple occasions to gather, delineate and refine information related to this issue. After review of our available data and enrollment projections, this collaborative team with the endorsement of the Superintendent of Schools makes the recommendation contained in Appendix “A” to the School Board for formal affirmation. The affirmation is only applicable to space availability for School Year 2014-15.

Administrative Recommendation:

Administration recommends that the Kenosha Unified School Board affirm and approve the space availability for open enrollment students (both regular and special education) as noted herein for School Year 2014-15.

KUSD policy requires that a current open enrolled student re-apply just once, which is during the transition from elementary to middle school, or if they first enrolled during middle school, then they must reapply during the transition from middle school to high school. Also, tuition waiver students (those who start the year in KUSD but move out of district) have a right to complete the current year and apply for open enrollment the following year. The numbers in parenthesis represent those current open enrolled students and current tuition waiver students who are required to reapply. Even though these are current KUSD students, they are counted as new applications for our state reporting.

2010-11	71	10	51	NA

DPI moved the Board allocation approval process from March to January starting in January of 2013. In prior years, district administration and the School Board would have a count of applications and requests to review before allocating spaces.

RESOLUTION OPPOSING CHARTER SCHOOL REGULATION CHANGES ASSEMBLY BILL 549

WHEREAS, public school districts in the State of Wisconsin accept and educate children regardless of race, ethnicity, gender, religion or academic talents, as opposed to those institutions that are able to reject applicants based on low academic performance, discipline issues, special needs, or any number of other factors; and

WHEREAS, public schools in the State of Wisconsin are held to strict accountability standards in an effort to measure student achievement and academic progress, and recommends all schools that receive any public funding be held to the same standards; and

WHEREAS, the Wisconsin Legislature will convene in January, 2014, and may consider aggressive expansion of the charter authorizer program and elimination of instrumentality charter schools, against the wishes of the governing body of the School District; and

WHEREAS, the Kenosha Unified School District currently presents its students with a broad range of outstanding educational options, including instrumentality charter schools, specialty schools, and open enrollment, and is not, therefore, in need of expansion of the proposed charter authorizer modifications; and

WHEREAS, Kenosha's instrumentality charter instructors are included in the district professional evaluation standards and opposes alternative evaluation procedures for non-instrumentality and magnet schools; and

WHEREAS, Kenosha's instrumentality charters presently provide multiple successful options for parents and children and would be seriously jeopardized by this aggressive expansion; and

WHEREAS, the forceful expansion of charter and magnet schools that take any financial resources away from public schools and diminishes the great strides that have been made in those schools is unacceptable; and

WHEREAS, Wisconsin public school funding is subject to mandated revenue limits driven by enrollment counts that will be negatively impacted by independent charter school enrollment expansion; and

WHEREAS, the Kenosha Unified School District Board of Education believes that any expansion of a state charter program in the District has the potential to reduce state aid distribution to public schools which will result in a corresponding increase in the District property tax levy; and

WHEREAS, the School District Board wishes to maximize its available resources for the support of its operating programs, without the need to remove local control of instrumentality charter schools; and

WHEREAS, the Kenosha Unified School District is not in a position to evaluate or assess the benefits/detriments which magnet schools may create in other Wisconsin School Districts; and

WHEREAS, the Kenosha Unified School District does not wish to assert or present a position which might create harm or disadvantage to the educational options which are offered to their students by other Wisconsin School Districts; and

WHEREAS, the Kenosha Unified School District Board of Education believes that each Wisconsin School District must individually determine whether an expansion of its charter program is beneficial, or detrimental, to its students and educational programs.

NOW, THEREFORE, BE IT RESOLVED that the Kenosha Unified School District opposes any legislation or other effort by the Wisconsin Legislature to aggressively expand the non-instrumentality charter program in the Kenosha Unified School District or any other program that would have an effect similar to that of a program, and encourages its elected officials to oppose the same.

BE IT FURTHER RESOLVED that the Kenosha Unified School District directs its Superintendent to take immediate action to alert the District's state legislators, Senators Robert Wirth and John Lehman and Representatives Peter Barca, Samantha Kerkman and Tod Ohnstad about the need to oppose aggressive charter legislation in the Kenosha Unified School District and the negative consequences on the school district and the public education system and to provide a copy of this resolution to them.

BE IT FURTHER RESOLVED that the Kenosha Unified School District will encourage others, including parents, students and District taxpayers, to recognize the detrimental effect of a rapid and unfair charter expansion on public education in the Kenosha Unified School District and to contact elected legislators to convey the importance of supporting quality public education in the State of Wisconsin.

Adopted this 28th day of January, 2014.
